At the same time, another athlete on the same target enters all scores into the scoring tablet. The other athletes should verify that all scores are written and entered correctly.

- The scorecards **MUST** be signed by the athlete and the scorer, have all totals mathematically correct, with the X's and 10's count fully completed. Any scorecards where the X's and 10's count are not completed will be given a score of "0" for the total of X's and 10's for that athlete.
- **Elimination Round:** Scoring will be completed by athletes. One athlete/team records the arrow values of both athletes/teams on the paper score sheet. At the same time, the other athlete/team enters the arrow values into the scoring tablet. Both athletes/teams should verify that all scores are written and entered correctly before returning to the shooting line.
- During the **Team** and **Mixed Team** matches, the score sheets will include A-B-C identifiers for each athlete in the team. When recording scores, each arrow must be matched with the corresponding athlete. Examples of the score sheets are attached to this document.
- At the end of the match, the scorecard must be fully completed and signed by the athletes (or agent/judge in the case of the finals) involved in the match.
- Scoring tablets will be used during the Qualification and Elimination Rounds, but not in the Finals.
