Date: 23 September 2026

Appeal made by: The team of GBR and the team of USA.

Members of the Jury:

The appeal was made:

Team GBR and Team USA noticed that target 18 on the red course had the wrong target face set up for the distance the athletes had shot. The target face was a 80 cm face while the distance was for a 60 cm face. The appeal was lodged for the Senior Men and Senior Women recurve categories (RM and RW).

The jury interviewed the Chairman of Judges who confirmed that the situation indeed was as described by the teams of GBR and USA. For the RM and RW categories the target face was set up wrong.

The jury decided unanimously to remove target 18 of the red course for the RM and RW categories.

As the appeal was upheld, the appeal fee was returned.
