

Jury of appeal decision

Appeal made by team Mexico

Event: World Archery 3D Championship 2026

Location: Yankton, USA

Date: 1 October 2026

Appeal made by: The team of MEX.

Members of the Jury:

- Morten Boe
- Allison Collins
- Chris Horan

The appeal was made:

The Mexican archer reported that the Slovenian archer Tim Jevsnik lifted the bow and arranged his sight. He also reported that the Slovenian archers were talking each other in their own language. The Mexican archer informed a judge as soon as the match ended.

The jury confirmed that this is allowed per the rules to draw the bow, come down and adjust the sight. According to rule 20.6., 20.6.1, 24.4 bullet six – there will be no communication about the distances. It does not state only English can be used. There is no evidence that the distances were communicated. Warning will be issued to the archers.

Jury recommend this rule is reviewed, regarding any communication in non-English is presumed to be potential bad behaviour.

Jury therefore dismissed the appeal.

The Jury of Appeal:
