Games Hub is available in English only.

Games Hub terminals are dedicated computers that provide access only to the Games Hub system. These will be installed in designated venues, with Games Hub printers available if necessary.

In addition to Games Hub terminals, accredited NPC members and media personnel will be able to access Games Hub via personal devices through my Games Hub accounts. We will provide separate instructions on how to access Games Hub from personal devices.

5.8. Language Services

AINAGOC will provide professional interpretation, volunteer language assistance and over-the-phone interpretation for our stakeholders.

5.8.1. Professional Interpretation

Professional interpretation will be provided simultaneously in two (2) languages (Japanese and English) for press conferences at Main Press Centre (MPC), Izu Velodrome (IVD) and Nagoya City Mizuho Park Athletics Stadium (MPA).

5.8.2. Volunteer language assistance

Language support volunteers will, in principle, provide consecutive interpretation between English and Japanese in the mixed zone at competition venues.

Volunteers will use interpretation apps within competition venues to support communication between domestic and international stakeholders and AINAGOC staff.

5.8.3. Over-the-phone interpretation

In case of emergency, AINAGOC will provide over-the-phone interpretation in six (6) languages (Japanese, English, Chinese, Korean, Russian and Arabic) for our stakeholders in need.

Dedicated phone numbers will be distributed to the medical office and doping control station. They are intended for use only in emergencies.

5.8.4. Other Language Support

AINAGOC will distribute interpretation apps supporting over 30 languages to staff and Games volunteers to support communication with domestic and international stakeholders.

5.9. Weather Services

Weather information will be provided through a weather information system designed for event organizers.

In addition to providing time-series forecasts (up to 72 hours in advance, in one-hour increments) and weekly forecasts (up to 10 days in advance, in one-day increments) for each venue, the system is scheduled to provide information on natural disasters, such as heavy rain, lightning, earthquakes, tsunamis, and advisories and warnings issued by the Japan Meteorological Agency.

5.10. Security

Aichi-Nagoya 2026 Asian Para Games will implement appropriate and safety measures

at all Games venues to ensure a secure environment for all participants.

All NPC delegation members must comply with Japanese laws and the Visitor (Athlete) Compliance Regulations outlined below during their stay.

5.10.1. Venue lockdown

Security sweeps will be conducted at all competition venues and selected non-competition venues (venue') to confirm that there are no prohibited or dangerous items that could threaten the safety of the venue or its occupants.

Once the sweep is complete, the venue will be declared clean and will subsequently enter lockdown.

The inspection will involve a full check of the entire venue, including building, containers and cargo.

NPCs are generally required to be present during the sweep of relevant rooms and containers. If unable to attend, NPC must make the necessary arrangements in advance to allow the inspection to proceed, such as unlocking the rooms or providing the relevant keys.

5.10.2. Venue access control

In principle, a vehicle screening area, a pedestrian screening area and an accreditation checkpoint will be established at each venue entrance.

To enter the venue, all Games participants and vehicles must present a valid accreditation card or VAPP and undergo a security check.

Vehicles travelling from another clean venue, in line with the 'Clean to Clean' principle, will not require occupant screening; the VAPP and accreditation card must be presented to confirm its validity.

Each venue will also be patrolled by security personnel 24 hours a day.

5.10.3. Venue Visitor (Athlete) Compliance

Visitors (Athletes) must follow the designated Visitor (Athlete) Compliance Regulations, which specify prohibited behaviours and items that must not be brought into the venue.

These rules apply to entry into the Games venues. For information regarding restrictions and prohibitions when entering Japan, refer to [Goods with Prohibitions, Controls and Restrictions : Japan Customs](#).

The full list of Visitor (Athlete) Compliance Regulations can be found from the following URL.

In addition, any items resembling a prohibited object in appearance, such as replica firearms, simulated explosive devices or white powders that may resemble illicit substances, will be prohibited, regardless of legality or safety.

Items that are normally prohibited but required for specific Games-related purposes by athletes, team officials or competition partners may be exempted if the NPC applies for and receives approval for exemption in advance.
