Scoring tablets will be used during the qualification round only, but not in the finals.

Qualification round

- Scoring is completed by the athletes. One athlete records the scores of all other athletes on the target on the official paper scoresheet, while another athlete on the same target enters all scores for that target into the scoring tablet.
- Intermediate scores MUST be calculated and updated on the scoresheet after each end

Olympic Match Round

All matches will be conducted on the finals FOP and will be shot in alternate shooting format. The agent must wear the same uniform as the competing archer or team. 11.2.1. The total time allowed to shoot an end will be determined by the total number of arrows to shoot in the end.

11.2.1.1. For World Ranking Events and other national or international events in which the organizers announce beforehand, the following will apply:

- *Twenty (20) seconds per arrow is the time allowed for individual alternate shooting and all team and mixed team rounds, including shoot-offs.*

Medical related issues

Heat

source: Dakar 2026 Heat Mitigation Plan

Given the weather conditions at this part of the year in Dakar, the YOGOC has laid down a **Heat Mitigation Plan** that can be activated anytime during the Games if needed. Meanwhile, it is highly recommended to:

- Recommended sunscreen: SPF 30 minimum
- Regular hydration: at least 2 litres of water per day
- Whenever possible, avoid direct sun exposure between 11:00 and 15:00
- Wear light, breathable, light-coloured clothing
- Hat, sunglasses and seeking shade are strongly recommended
- Close the black out curtains in rooms whenever possible, to lower the temperature inside
- abide by instructions if the **Heat Mitigation Plan** measures are activated.

Tap water, although drinkable, should be avoided.

Opt for bottled mineral water.

During the competition, the medical plan provides one FOP Medical Station, one physio room and two ambulances. The Medical Station will be located next to the athlete wait / call area, between the qualification FOP and the Finals FOP. Athletes are among the groups identified to receive on-site first aid, emergency care, medico-psychological support and medical evacuation free of charge during competition hours.

HEAT MITIGATION MEASURES AT COMPETITION VENUES

HEAT ILLNESS RISK BY SPORT

Risk is driven by exercise intensity and duration, environmental exposure (outdoor sun vs shaded/indoor), heat-radiating surfaces, clothing or equipment that traps heat, tournament density (repeated bouts/matches in one day), and pre-event dehydration (notably weight-making combat athletes). The youth population adds vulnerability: adolescents have a higher surface-area-to-mass ratio and can heat-load faster than adults under the same conditions.

Risk tier	Sports	Principal drivers
Highest	Triathlon; Road Cycling; Rugby Sevens; Athletics	Prolonged or repeated high-intensity effort in full sun; tournament / multi-event days; minimal recovery between efforts
High	Beach Handball, Beach Volleyball & Beach Wrestling (all 3 in hot sand, radiant load), Baseball5; Futsal (very high intensity, indoor heat in Complexe Iba Mar Diop only, Dakar Arena will have AC); 3x3 Basketball	Radiant heat from sand / hard surfaces, sustained exposure, equipment
Moderate	Combat sports — Boxing, Judo, Taekwondo, Wushu; Skateboarding; Breaking; Equestrian, Artistic Gymnastics	Short but maximal efforts; dehydration from weight-making is the key amplifier in combat sports; indoor venues may still be hot
Water-buffered / lower exertional risk	Archery; Swimming; Rowing Coastal Beach Sprints, Sailing (Windsurfing)	Water aids heat loss, but sun, deck / boat exposure and prolonged duration still cause heat exhaustion and severe sunburn
Lower exertional, environmental exposure persists	Badminton; Table Tennis; Fencing	Low metabolic load, although archery involves long static sun exposure; most indoor sports depend on venue ventilation

Mixed zone and press conferences

13.2. Doping and Alcohol

- *An athlete found to have committed an Anti-Doping Rules violation will be subject to sanctions as laid down in Book 7 Anti-Doping Rules.*
- *An athlete with a positive alcohol test will be disqualified, and the case will be forwarded to the Board of Justice and Ethics for further sanctions.*
