

Parent/Coach area and accreditation

Over the last few years we have noticed that there has been a considerable number of adults on the field supporting archers. Whilst this is excellent and creates a great atmosphere for the duration of the event it also raises a number of issues around the comfort of the archers in terms of access to, and from the equipment area into the shooting area and the tent area, Visibility issues for the judges and also access for medical / event personnel where needed.

To this end Accreditation, and a coach/parent line has been introduced for this year. When an archer registers on Monday morning they will receive one coach/adult accreditation. Only those with a coach accreditation are allowed in the coach area (between the back of the equipment area, and the tent line). Other adults are asked to stay behind the tent line.

Both the event staff and judges will check that this is being adhered to, once again this is for the comfort and safety of the archers during the event.

The line marked on the field are:

Shooting line _____

1M team Line _____

Waiting Line _____

Coach Line _____

Tent Line _____

Only Archers, Judges and Event staff are allowed in front of the Coach Line during the event.

Thank you all in advance for your co-operation.
