

The British Target Championships - Day 1

Info Note 1

Weather Plans

We are aware of the threat of severe weather on Saturday, but also that our weather conditions can change rapidly

We have the following options that may be used should the weather be deemed bad enough to stop archery. The weather will be assessed continually throughout the shoot.

> Option 1 – The ranking round is cut in ½ to 36 arrows. Ranking positions for the Head to Head will be based on this.

> Option 2 – The Head to Head will have its cut level changed from 64 archers to 16 archers. This will ensure the Head to Head is completed in some form for the triple points element of the British Target Championships.

If the Head to Head has to be abandoned, there is a process for working out the results, an explanatory note will accompany the results, if this is required.

Should Saturday be cancelled all together, the Tier 1 Ranking and Head to Head round will be shot on Sunday, replacing the 1440
