FINAL QUALIFYING TOURNAMENT TOKYO PARA
GAMES**

TD COMMUNICATION

05/07/2021

After the antigenic COVID testing session, on more than 400 samples, only 1 positive result was detected, double checked.

In this situation, the concerned person was immediately isolated, and the other members of the team were also isolated for mandatory period till a PCR test the 10th July.

That situation concerns the team of THAILAND and is independent of their willingness and not due to a fault coming from them.

I am sure that all archers and staff will support our friends of Thailand who are living a sad and difficult situation.

Please encourage your team's member to respect all measures for the next days.

Dominique OHLMANN

Technical Delegate
