

SWWU Leg 6 - Indoor Championships

H2H Information

For sake of time and space we have had to combine and/or implement a cut in some categories for H2Hs, based on entry numbers. The field of play document tells you in what order and where each H2H will happen. Please note that the times are extremely approximate and not to be relied on - we will announce when each pass of H2Hs is starting and it is your responsibility to be there.

The list below details each H2H event and if there is a cut:

- REM is all recurve experienced men with a cut of the top 16 archers.
- REW is all recurve experienced women with a cut of the top 16 archers.
- RNM is all recurve novice men with a cut of the top 16 archers.
- RNW is all recurve novice women with a cut of the top 16 archers.
- RA is all recurve alumni archers with a cut of the top 4 archers.
- C is all compound archers, regardless of experience or gender, with a cut of the top 8 archers.
- BE is all experienced barebows with a cut of the top 16 archers.
- BN is all novice barebows with a cut of the top 16 archers.
- L is all longbow archers, regardless of experience or gender, with a cut of the top 4 archers.

Some of those cuts allow for more archers than in the category so there will be some byes. Archers will not be able to shoot byes.

Triple spot faces will be used for H2Hs for REM, REW and C. All other categories will have single spot faces.

Bosses 1-13 are foam, 14-16 are straw.
