

H2H Information

For sake of time and space we have had to combine some categories for H2Hs, based on entry numbers. There are no cuts in any category so every archer is guaranteed at least one match. The field of play schedule tells you in what order and where each H2H will happen. Please note that the times are extremely approximate and not to be relied on - we will announce when each pass of H2Hs is starting and it is your responsibility to be there.

The list below details each H2H event:

- RE is all experienced recurves.
- RN is all novice recurves.
- B is all barebow archers.
- L is all longbow archers.

Archers will not be able to shoot byes and all matches are at the same distance as qualification.
