# Results

## 4.1 Timing control system

World Archery timing equipment will be used for timing and scoreboards on preliminary rounds and finals. During qualifications and elimination rounds, the clock will run until the end, without interruption of the Director of Shooting.

## 4.2 Results system

- Qualification Round - scoring will be completed by athletes. One athlete records, on the official paper-based score sheet, the scores of all other athletes on that target. At the same time, another athlete, on that same target, will enter all the scores of the athletes on that target into the scoring tablet.
- Scorecards MUST be signed by both the athlete and the scorer, have all the totals mathematically correct with the 10s+Xs and X count fully completed. Any scorecards where the 10s+Xs and X count are not completed a "0" will be given for the total of 10s+Xs and X count for that athlete. Any score cards not signed or the score total is missing will result in disqualification.
- Elimination Round – scoring will be completed by athletes. One athlete/team records the arrow values of both athletes/teams on the paper score sheet. While at the same time, the other athlete/team inputs the arrow values into the scoring tablet. Both athletes/teams should verify that all scores are written and entered correctly before returning to the shooting line.
- At the end of the match, the scorecard must be fully completed and signed by the athletes (or agent/judge in the case of finals) involved in the match.
- Scoring tablets will be used during the Qualification and Elimination Rounds, but not in the Finals. Mr. Oguzhan Ulucan is responsible for the results of the event.
- **IMPORTANT NOTE: There will be internet access in the official hotels and the venues. Because of this we will not distribute any printed results and information.**

Upgrade cards are available for those teams that do not have a coach or team manager available on their team and wish to have a coach for their athlete/team's match.

An upgrade card can be allocated to another athlete or accredited person to perform the role of coach for a specific athlete at that event.

Upgrade cards (serial numbered) are individually allocated/valid to an individual person for a particular event athlete/team. As soon as the athlete/team is out of the competition, the upgrade card is no longer active.

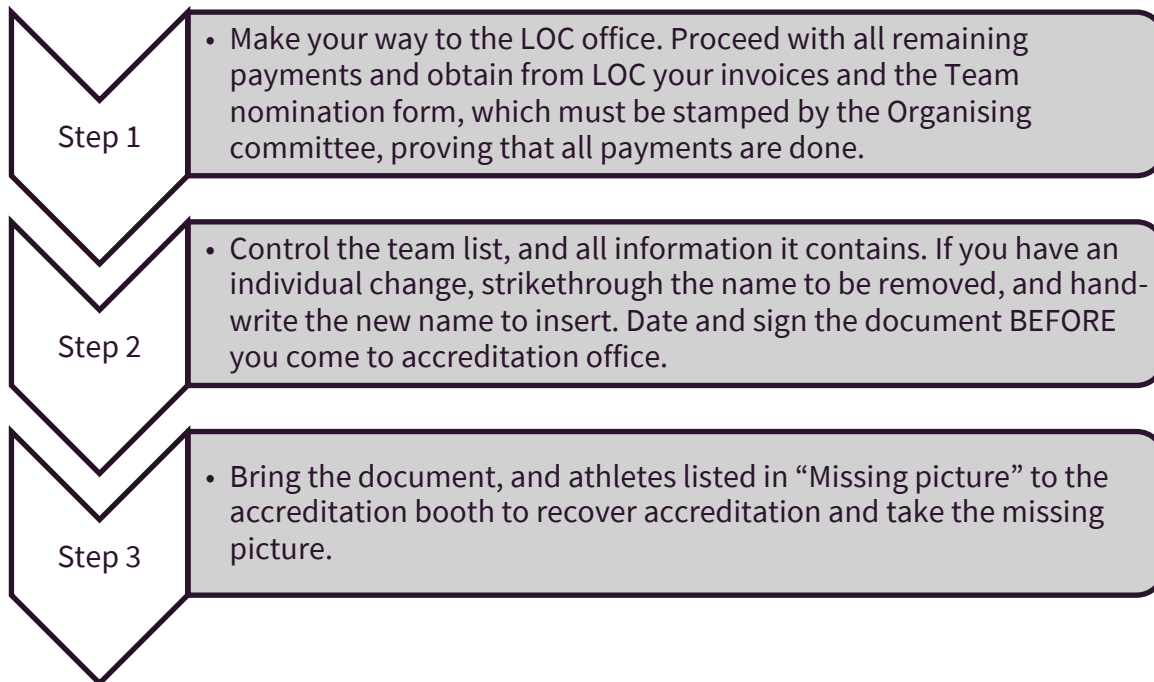

For an upgrade card to be issued, an Accreditation Upgrade Form needs to be completed and signed by the Team Manager, President, or Secretary General of the Member Association of the athlete/team to be coached. This form can be completed in advance by completing the form in annex or at venue.

## 6.5 Data collection

As of this year, we will initiate a data collection on athlete's archery equipment, during official practice athletes willing to participate need to announce themselves to judges when they arrive at control area. We will collect arrow weight, bow poundage and arrow speed. This data collection is open to both recurve and compound.

We aim to evaluate the possibility of changing the bow poundage limitation to energy limitation. At the moment, we've had 146 athletes participating in the data collection. Below, some insights on the average data collected so far. These insights are not to be considered as an outcome of the study, which will require more analysis than the simple average presented here.

Bow type	Gender	AVERAGE de Bow Poundage (lbs)	AVERAGE de Arrow weight (gn)	AVERAGE de Arrow speed (kph)	AVERAGE de Calculated Kinetic Energy (J)
Compound	Men	57,13043478	395,9434783	298,3391304	88,3762
	Women	54,15714286	341,9818182	286,6136364	70,4506

## 6.6 Antalya 2025 test Report

The Antalya 2025 Feedback questionnaire received a total of 92 responses, questions could be rated from 1 to 6, one being the most negative feeling, 6 being the best. The panel consisted of 62 athletes (67.4%) and 30 coaches (32.6%). Among the athletes, 67.7% participated in the recurve discipline, while 32.3% were involved in compound events. This demographic distribution provides a comprehensive view of the perspectives of both athletes and coaches regarding the event's organisation and scoring systems.

In terms of scheduling, the overall satisfaction with the event's scheduling, particularly the overlapping of Saturday competitions across two venues, received an average rating of 4.0. This indicates a moderate level of satisfaction, with 28.3% of respondents rating it a 6 (very satisfied) and 17.4% rating it a 5. Notably, the average rating of 2.6 for the question regarding logistical issues related to the schedule suggests that most participants felt these issues did not significantly impact their performance, leaning towards the "Not At All" side of the scale.

Regarding the clarity of the schedule, the average rating was 4.7, indicating that the majority of participants found the information provided prior to the event to be clear and effective. This is a positive outcome, as clear communication is essential for proper preparation.

The implementation of the X scoring system for recurve received a lower average satisfaction rating of 3.3, with 33.3% of respondents expressing dissatisfaction (rating it a 1). In contrast, the clarity of the scoring process was rated higher, with an average of 4.4. This discrepancy suggests that while participants understood the scoring process, their overall satisfaction with the scoring system itself was lower, indicating potential concerns regarding its fairness or effectiveness.

When examining the confidence in the accuracy of results produced under the 11-scoring system for recurve, the average rating was 3.4, reflecting a moderate level of confidence among participants. This is further supported by feedback in the additional comments section, where some athletes expressed concerns about the new scoring system, suggesting that it may introduce an element of luck rather than skill.

For the compound discipline, satisfaction with the X scoring system was higher, averaging 4.3, with 44% of respondents rating it a 6. The clarity of the scoring process for compound also received a positive rating of 4.6, indicating that participants felt more comfortable with this system compared to recurve.

The new qualification round format, particularly the absence of breaks between the two halves, received an average satisfaction rating of 4.3.

In conclusion, the scheduling and clarity of information were well-received, concerns regarding the fairness of the X scoring system, particularly for recurve, were highlighted. The new qualification round format was appreciated.

# Protocol, ceremonies, clean sport.

## 7.1 Medal ceremonies

All athletes involved in the ceremonies are requested to go to the gathering point by the athletes' entrance to the main Field of Play, equipment can be stored in the staging area until the end of the corresponding victory ceremony.

Bronze medal winners are requested to be present at the final venue gathering point of the Award Ceremony, 20 minutes before the ceremonies are due to start.

Medal ceremonies will be conducted immediately after the interview of gold medal winner of each category during the days of the finals (please check the competition schedule).

Athletes are requested to proceed straight to the mixed zone or the ceremony area.

## 7.2 Mixed zone and press conferences:

Interviews will take place at the Mixed Zone and athletes will be requested to pass through the mixed zone to speak with the media.

## 7.3 Clean sport

### Anti-doping

Anti-Doping control will follow World Archery rules (Hyundai Archery World Cup and World Ranking events).

Athletes should bring their passports and/or accreditation cards to the anti-doping control station if selected for a test.

### Alcohol test

Athletes and officials should also be available for random alcohol testing during the competition, following World Archery rules.

Alcohol testing can be performed at any moment on anyone that is present on accredited areas of the field of play.

### 2.3.4 Alcohol Test

*Alcohol is a banned substance in archery. No person on the field of play shall consume alcohol or be under the influence of alcohol as prohibited in 2.3.4. Alcohol Test. Athletes selected for Anti-Doping Sample collection shall also be tested for alcohol. Tests may be carried out at any time during the Competition at any International Event at the discretion of the person designated by World Archery to conduct the Alcohol Test, or by the Organising Committee if World Archery has not designated any such person.*

#### 2.3.4.1 Procedure for alcohol tests

*The alcohol test is performed by the testing of exhaled air. If the test of exhaled air exceeds the doping violation threshold of 0.1 per mille, a second test of exhaled air will be performed 10 minutes later using a different breathalyser. If the second test of exhaled air still exceeds the threshold, this will result in a positive alcohol test.*

### 15.5 Consequences of a Positive Alcohol Test

*15.5.1 If an alcohol test performed on a person subject to 2.3.4. Alcohol Test in Book 1 results in positive before the end of an Event, such person shall be withdrawn from the Event and the case will be forwarded to the Board of Justice and Ethics for further sanctions.*

15.5.2 Consequences are:

- *Disqualification of the Event;*
- *1 year of ineligibility for the first offense;*
- *4 years of ineligibility for the second offense;*
