

## TEAM GAME RULES

- Teams will be formed randomly from 3 archers of the same bow type
- Those wishing to participate in the team tournament will draw their teams after the qualification round
- The team tournament will use unique targets created by artist Gintarė Markevičienė

### Rules for Targets:

- Target sizes will depend on the type of bow
- Scoring zones are marked on the targets

### Shooting Order:

- During each series, each archer must shoot **one arrow** at their own target
- Each series will be allocated **90 seconds** to complete
- Whether team members shoot simultaneously or one at a time is decided by the team
- All team members must fit into their target zone on the shooting line
- Hitting scoring zones awards points, which are added to the team's total score
- Hitting the "flying bird" zone on the target results in **immediate elimination** of the team from further play (any arrow that touches the flying bird, even if it also touches the scoring zone will eliminate the team from further competition)

### Team Tournament Progression:

- All teams shoot at the same time during each series
- The team with the lowest score at the end of each series is eliminated. If multiple teams tie with the lowest score, all such teams are eliminated.
- Shooting continues until only one team remains.

### Prizes:

- The winning team will be awarded prizes provided by **“Good Archer”**
