Final schedule published by 16.10.2025

WITH KIND SUPERVISION OF MATILDA

Prizes:

The competition consists of 3 rounds. The first three competitors in each category in a given round will be awarded. After the third round, the overall winners of each category will be awarded. The winner of the category will be the shooter whose total sum of shots from the qualifications of the individual rounds of the competition will be the highest in the given category. In the event of a tie, the shooter with the highest shot in an individual round wins. If there is still a tie in this case, a coin toss will decide the winner. It is not necessary to complete all rounds of the competition to win the overall category. The shooter who achieves the highest total sum of shots from the qualifications of the individual rounds of the competition among all participating shooters across all categories and divisions will be awarded the main prize of the competition - the "Petržalska plaque". In the event of a tie in points, the shooter with the highest shot in an individual round wins. If there is still a tie in this case, a coin toss will decide the winner. The overall evaluation of the competition will take place in the last - third round of the competition. The awarding of the award for the overall category winner and the winner of the "Petržalska placka" is conditional on the participation of at least one active shooter from the club from which the shooter is awarded (active shooter = shooter must shoot the last round of the competition and also participate in the announcement of the winners).
